AUGUST 2026

JULY 2026 LABOR MARKET REPORT

AUTHORS: COLE ANDERSON, ERIK GAMM, JIMENA SANCHEZ

Summary

Colorado experienced moderate employment growth over the last month. After adding 1,900 nonfarm jobs in June, the state added 5,800 in July. The private sector saw an increase of 6,500 jobs, while government employment declined by 700.

Key Findings

- **Over the past year, Colorado remained near the middle of national rankings.** The state ranks 24th among states in nonfarm employment growth over this time.
- **Colorado's total employment grew by 5,800 in July.** Private-sector jobs grew by 6,500 jobs, while government jobs declined by 700.
- **Despite employment growth, Colorado's LFPR dropped for the sixth consecutive month.** It fell by 0.1 percentage points in July for a total of 1.6 ppt over the last year.
- **Despite July's employment gains, Colorado's unemployment rate remained unchanged at 3.9% for the seventh consecutive month.** The state ranks 26th nationally.

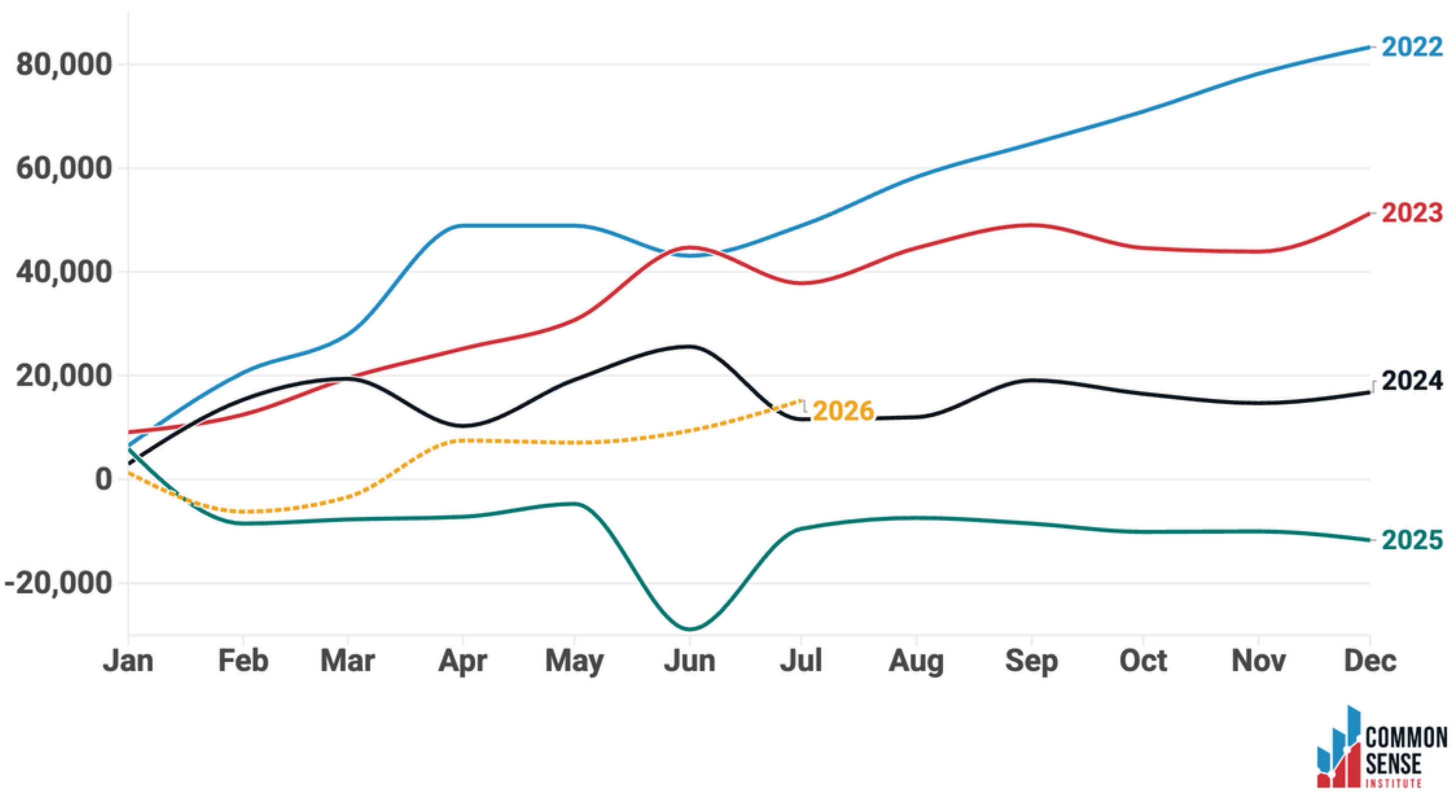
Cumulative Jobs Added by Year in Colorado

From December 2025 to July 2026, total employment increased by 15,200 jobs compared to a decrease of 9,500 jobs this time last year.



Definitions and methodology notes

Definitions of the report's labor-market terms

Payroll employment terms

BLS CES

Total nonfarm jobs

Employment reported by the Current Employment Statistics program for workers on non-farm payrolls. It reflects payroll jobs, not unique people, so a person with more than one job can be counted more than once.

Private jobs

The private-sector portion of nonfarm payroll employment. It excludes government payroll employment.

Government jobs

The government portion of nonfarm payroll employment, including federal, state, and local government payrolls.

Average hourly earnings

Gross payrolls divided by total hours worked during the pay period that includes the 12th of the month. This is an earnings measure, not a posted wage-rate measure.

Average weekly hours

Average paid hours during the pay period that includes the 12th of the month. Paid time can include holidays, sick leave, and other paid leave.

Average weekly earnings

A weekly earnings measure derived from average hourly earnings and average weekly hours.

Labor force terms

BLS CPS/LAUS

Labor force

All people age 16 and older who are classified as either employed or unemployed. In plain terms, it is the number of people working or actively looking for work.

Employed

People are classified as employed if, during the reference week, they did any paid work, worked in their own business or farm, worked at least 15 unpaid hours in a family business, or were temporarily absent from a job.

Unemployed

People are classified as unemployed if they were not employed, were available for work, and had actively looked for work in the last 4 weeks, or were on temporary layoff.

Labor force participation rate

The labor force as a percentage of the civilian noninstitutional population.

Unemployment rate

The number of unemployed people as a percentage of the labor force.

Labor demand and turnover terms

BLS JOLTS

Job openings

Open positions employers are actively recruiting to fill.

Hires

All additions to payroll during the month, whether they are new hires, recalls, or other additions.

Quits

Voluntary separations initiated by employees, except retirements and transfers to other locations.

Layoffs and discharges

Involuntary separations initiated by the employer, including layoffs with no intent to rehire, discharges, and certain terminations of temporary or seasonal workers.

Total separations

The sum of quits, layoffs and discharges, and other separations.

Report notes

Seasonally adjusted

A BLS statistical adjustment that removes recurring seasonal influences so underlying month-to-month changes are isolated.

1-month change

Report convention: current month minus prior month.

12-month change

Report convention: current month minus the same month one year earlier.
